

GRADUATION REQUIREMENTS

This chart may help students in planning a Six-Year-Plan, from middle school through the first year of college. Such a plan takes into consideration academic ability, career goals, interests, and plans for additional education beyond high school. The purpose of the plan is to familiarize the student with graduation requirements and to stimulate thought for the future. At each registration, teachers will advise the student about course selections and levels of difficulty based on prior performance. Parents are encouraged to monitor their student's progress by updating and reviewing this plan after each grading period. For further information, contact the school counselor or advisor.
